

B AD 1001 Personal Productivity Tools

Spring 2026

Logistics

Instructor

Prof. Hitesha Yadav, Office: Adams Hall 0150

Office Hours: Friday 2pm to 3pm

Email: badsupport@ou.edu

Class Information

Location: Adams Hall 150

Time:

B AD 1001- 001 (9 -9:50 am)

B AD 1001- 002 (12 -12:50 pm)

B AD 1001- 006 (1 – 1:50 pm)

Exams: See Canvas for more information

Required Texts

MyEducator – Personal Productivity Tools – accessible through Canvas. Click on modules -> MyEducator Canvas Connect -> Link to Textbook!

Required Software

This class allows a student to select whether s/he will work on a MAC OS (Operating System) or Windows OS. Once you have chosen your particular operating system, you must download MS Office (available from <https://office.com> after logging in with OU 4 x 4) to download MS Excel. Step-by-step information on how to download MS Excel will be provided on Canvas.

Required Hardware

For this course, a **computer** is defined as a **Mac** or **Windows laptop** capable of running full desktop software applications. These devices are required because the course uses **Microsoft Excel (Office 365)** and the **MyEducator Excel Add-in**, both of which are necessary for completing assignments, in-class activities, and exams.

Devices that are *not* acceptable include: Tablets (e.g., iPad, Surface in tablet mode); Chromebooks; Smartphones. These devices do not support the required software and cannot be used to complete course work or exams.

Students who do not own a Mac or Windows laptop may borrow a **loaner laptop** from the **Price Hall lobby kiosk**. Loaner laptops come pre-installed with Excel and the required add-ins and may be used for class sessions and exams.

Students must be able to bring an approved computer to **every class meeting and every exam**.

Course Website

Available through <http://canvas.ou.edu>.

Course Overview

B AD 1001 is designed to help all business majors and business minors succeed as students and emerging professionals in a digitally driven workplace. Today's employers expect graduates to be not only comfortable with core productivity tools, but also conversant with foundational concepts in data, artificial intelligence (AI), and responsible technology use.

The course builds essential **digital fluency** through hands-on use of **OneDrive** and **Microsoft Excel**, skills universally valued across business disciplines and industries. Students learn how to organize individual and team-based work in the cloud, analyze and communicate data effectively, and develop spreadsheet skills that directly translate to internships and entry-level roles.

In addition, the course introduces students to **Artificial Intelligence in business contexts**. Students will gain a brief, non-technical history of AI, explore how modern AI systems work through an "AI Cookbook" approach that demystifies common algorithms, and learn the fundamentals of **prompt engineering**—how to effectively interact with AI tools to improve productivity, analysis, and decision-making. The course also addresses **ethics, governance, and responsible use of AI**, helping students understand the risks, limitations, and professional expectations associated with AI technologies in organizations.

By combining practical tool-based skills with AI literacy and ethical awareness, B AD 1001 prepares students to confidently navigate modern business environments and to differentiate themselves as capable, tech-savvy professionals.

Course Learning Outcomes (CLOs)

1. **Use cloud-based collaboration tools effectively**
Organize, store, and share files using **OneDrive** for both individual and team-based projects in a professional manner.
2. **Demonstrate safe and responsible digital behavior**
Apply best practices for secure online activity, data protection, and ethical technology use in academic and professional settings.
3. **Apply core Microsoft Excel skills for business analysis**
Create and format spreadsheets and tables; use basic formulas and statistical and financial functions; apply logical (IF, Boolean), conditional, and reference functions; visualize data with charts; and analyze data using Pivot Tables.
4. **Understand foundational AI concepts and applications in business**
Explain the basic history of AI, recognize common AI algorithms and use cases through a simplified "AI Cookbook" framework, and describe how AI is used to support business tasks and decisions.
5. **Use AI tools thoughtfully and responsibly**
Apply basic **prompt engineering** techniques to interact effectively with AI tools while recognizing ethical, governance, and organizational considerations related to AI use.

Course Requirements

Student performance in this course will be evaluated through a combination of practice assignments, weekly graded assignments, attendance, and two exams. The relative weight of each component toward the final course grade is outlined below.

Component	Number of Assignments Dropped	Relative Weight
Practice Assignments	10	5%
Weekly Assignments	3	50%
Attendance	3	5%
Exam I		20%
Exam II		20%
Optional Final Exam (replaces lowest exam score)		

In addition, students will have the option to take an **optional final exam**. The optional final exam, if taken, will **replace the lower score of Exam I or Exam II**. This option is intended to give students an opportunity to improve their overall weighted course score. The optional final exam cannot lower a student's grade—it can only maintain or improve the final result.

Missed Exams/Assignments

Make-up exams will be given only in extraordinary circumstances. If you expect to miss an exam or to be unable to meet another requirement, please discuss this with the instructor **before** the scheduled date.

For Attendance - your **three** lowest scores will automatically drop.

For Weekly Homework Assignments- your **three** lowest scores will automatically drop.

For Practice Assignments: your **ten** lowest scores (out of 28 assignments) will automatically drop.

For Exams: Your lowest exam score will drop. This means if you are happy with your grade after the first two exams, you won't have to take the Final Exam. Therefore, your score on the Final Exam would be a 0 and thus, dropped from your overall grade!

Exam Schedule:

Exam	Date	Location
Exam 1	Friday, Marh 13	Adams Hall 150
Exam 2	Friday, May 8	Adams Hall 150
Optional Final Exam	B AD 1001- 001 May 11, 2026 Mon (8 -10 am) B AD 1001- 002 May 13, 2026 Wed (1:30 – 3:30 pm) B AD 1001- 006 May 14, 2026 Thurs (8 -10 am)	Adams Hall 150

Grading Scale

Letter Grade	Grade Required
--------------	----------------

A	89.5% or above
B	79.5% or above
C	69.5% or above
D	59.5% of above
F	59.49% or below

Attendance

Regular attendance is important for success in this course, as in-class activities and demonstrations are designed to help you master the material more effectively. To recognize and reward students who consistently attend class, attendance is included as part of your course grade. Attendance will be assessed through periodic attendance checks. Your **three lowest attendance scores will automatically be dropped**, providing flexibility for occasional absences. Students are encouraged to attend class regularly to stay engaged with the material and to maximize their learning and performance in the course.

Practice Assignments

Each weekly homework assignment is supported by several **practice assignments**. For example, a given week's homework may include multiple practice exercises designed to help you prepare. Students are strongly encouraged to complete the practice assignments **before** attempting the graded homework, as this helps reduce avoidable mistakes and reinforces key concepts.

Support for practice assignments is available through the **MIS Minute Clinic** (AH 3225A), where TAs can help clarify questions and troubleshoot issues.

Weekly Homework Assignments

Weekly homework assignments are due most weeks during the semester (see the course calendar), except during weeks when an exam is scheduled. Students may also seek in-person assistance at the **MIS Minute Clinic** (AH 3225A); clinic hours are posted on Canvas. Each homework assignment allows **up to five submission attempts**, enabling you to learn from feedback and improve your work.

Exams

This course includes **two required exams**. An **optional final exam** is also offered and may be used to **replace the lower score from Exam I or Exam II**. Students are not required to take the final exam if they are satisfied with their exam performance prior to the final.

Important note:

Exam II is scheduled during the **pre-finals week**. In accordance with the Faculty Handbook, this exam is listed in the syllabus, announced on the first day of class, and approved by the MIS Division Director.

Timeliness

To receive full credit, all assignments must be submitted by the posted deadline, **Thursday at 11:59 PM**. Late work will not be accepted. Students with university-approved obligations that conflict with assignment or exam dates should contact the instructor **as early as possible** to make arrangements in advance. Students are strongly encouraged to submit homework early to avoid last-minute technical issues.

Score/Grade Appeals

Students wishing to appeal a score must submit the appeal **in writing** to the instructor within **48 hours (2 days)** of receiving the graded work. All score adjustments are at the discretion of the instructor; TAs do not make grade changes. Please note that a full review of the work may result in the score **increasing or decreasing**, and small point changes rarely affect the final course grade.

Office Hours and Communication

Office Hours

Students may seek help during office hours in one of two ways:

1. **Teaching Assistant (TA) Office Hours**

You may attend the office hours of your assigned TA or any TA supporting **B AD 1001**.

2. **Instructor Office Hours**

You are also welcome to meet with the instructor. My office is located in **MIS Office No. 3239**, and I am on campus most days each week.

Office hour schedules for TAs and the instructor will be posted on Canvas.

Communication Guidelines

To ensure that your message is routed and answered promptly, **all course-related emails must follow these guidelines**:

- Emails **must be sent to: badsupport@ou.edu**
- The **subject line must include B AD 1001**

Because of the size of the course, emails that do not follow these instructions may be delayed or overlooked.

Emails sent during **business hours (9:00 AM–5:00 PM)** typically receive a prompt response. Responses should not be expected during evenings or weekends.

Following these guidelines helps us respond to your questions efficiently and ensures you receive timely support.

OU Policies

Copyright Syllabus Statement for In-Person or Online Courses

Sessions of this course may be recorded or live-streamed. These recordings are the intellectual property of the individual faculty member and may not be shared or reproduced without the explicit, written

consent of the faculty member. In addition, privacy rights of others such as students, guest lecturers, and providers of copyrighted material displayed in the recording may be of concern. Students may not share any course recordings with individuals not enrolled in the class or upload them to any other online environment.

Academic Integrity

Academic honesty is incredibly important within this course. Cheating is prohibited at the University of Oklahoma, because it devalues the degree you are working hard to get. As a member of the OU community, it is your responsibility to protect your educational investment by knowing and following the rules. For specific definitions on what constitutes cheating, review the [Student's Guide to Academic Integrity](#).

To be successful in this class, all work on exams and quizzes must be yours and yours alone. You may not receive outside help with assessments. On examinations and quizzes, you will never be permitted to use your notes, textbooks, calculators, or any other study aids. Should you see someone else engaging in this behavior, I encourage you to report it to myself or directly to the Office of Academic Integrity Programs. I encourage this because when someone else cheats, it can negatively impact the reputation of our entire program. It is my professional obligation to report academic misconduct, which I will not hesitate to do. Sanctions for academic misconduct can include expulsion from the University and an F in this course, so do not cheat. It is simply not worth it.

Religious Observance

It is the policy of the University to excuse the absences of students that result from religious observances and to reschedule examinations and additional required classwork that may fall on religious holidays, without penalty. [\[See Faculty Handbook 3.15.2\]](#)

Reasonable Accommodation Policy

The Accessibility and Disability Resource Center is committed to supporting students with disabilities to ensure they can enjoy equal access to all components of their education. This includes your academics, housing, and community events. If you are experiencing a disability, a mental/medical health condition that has a significant impact on one or more life functions, you can receive accommodations to provide equal access. Disabilities include learning disabilities, AD(H)D, mental health, and chronic health. Additionally, we support students with temporary medical conditions (broken wrist, shoulder surgery, etc.) and pregnancy. To discuss potential accommodations, please contact the ADRC (Accessibility and Disability Resource Center) at 730 College Avenue, (ph.) 405.325.3852, or adrc@ou.edu.

Title IX Resources and Reporting Requirement

Anyone who has been impacted by gender-based violence, including dating violence, domestic violence, stalking, harassment, and sexual assault, deserves access to resources so that they are supported personally and academically. The University of Oklahoma is committed to offering resources to those impacted, including speaking with someone confidentially about your options, medical attention, counseling, reporting, academic support, and safety plans. If you would like to speak with someone confidentially, please contact [OU Advocates](#) (Available 24/7 at 405-615-0013) or another confidential resource (see ["Can I make an anonymous report?"](#)). You may also choose to report gender-based violence and discrimination through other means, including by contacting the [Institutional Equity Office](#)

(ieo@ou.edu, 405-325-3546) or police (911). Because the University of Oklahoma is committed to the safety of you and other students, I, as well as other faculty, Graduate Assistants, and Teaching Assistants, are mandatory reporters. This means we are obligated to report gender-based violence disclosed to us to the Institutional Equity Office. This includes disclosures that occur in class discussion, writing assignments, discussion boards, emails and during Student/Office Hours. For more information, please visit the [Institutional Equity Office](#).

Adjustments for Pregnancy/Childbirth Related Issues

Should you need modifications or adjustments to your course requirements because of documented pregnancy-related or childbirth-related issues, please contact your professor or the Accessibility and Disability Resource Center at 405/325-3852 as soon as possible. Also, see the Institutional Equity Office [FAQ \(Frequently Asked Questions\) on Pregnant and Parenting Students' Rights](#) for answers to commonly asked questions.

Final Exam Preparation Period

Pre-finals week will be defined as the seven calendar days before the first day of finals. Faculty may cover new course material throughout this week. For specific policy provisions, refer to OU's Final Exam Preparation Period policy.

Emergency Protocol

During an emergency, there are official university [procedures](#) that will maximize your safety.

Severe Weather: If you receive an OU Alert to seek refuge or hear a tornado siren that signals severe weather.

1. Look for severe weather refuge location maps located inside most OU buildings near the entrances
2. Seek refuge inside a building. Do not leave one building to seek shelter in another building that you deem safer. If outside, go into the nearest building.
3. Go to the building's severe weather refuge location. If you do not know where that is, go to the lowest level possible and seek refuge in an innermost room. Avoid outside doors and windows.
4. Get in, Get Down, Cover Up
5. Wait for official notice to resume normal activities.

Additional [Weather Safety Information](#) is available through the Department of Campus Safety.

Armed Subject/Campus Intruder

If you receive an OU Alert to shelter-in-place due to an active shooter or armed intruder situation or hear what you perceive to be gunshots:

1. *Avoid:* If you believe you can get out of the area WITHOUT encountering the armed individual, move quickly towards the nearest building exit, move away from the building, and call 911.
2. *Deny:* If you cannot flee, move to an area that can be locked or barricaded, turn off lights, silence devices, spread out, and formulate a plan of attack if the shooter enters the room.
3. *Defend:* As a last resort fight to defend yourself.

For more information, visit [OU's Emergency Preparedness site](#).

[Shots Fired on Campus Procedure – Video](#)

Fire Alarm/General Emergency

If you receive an OU Alert that there is danger inside or near the building, or the fire alarm inside the building activates: 1. *LEAVE* the building. Do not use the elevators. 2. *KNOW* at least two building exits 3. *ASSIST* those that may need help 4. *PROCEED* to the emergency assembly area 5 *ONCE safely outside*, *NOTIFY* first responders of anyone that may still be inside the building due to mobility issues. 6. *WAIT* for official notice before attempting to re-enter the building.

[OU Fire Safety on Campus](#)

Mental Health Support Services

If you are experiencing mental health issues impacting your academic performance, counseling is available at the University Counseling Center (UCC). The Center is on the second floor of the Goddard Health Center, at 620 Elm Rm. 201, Norman, OK 73019. To schedule an appointment call (405) 325-2911. For more information, please visit [University Counseling Center](#).

Dead Week and Pre-Finals Week Policies

Pre-finals week will be defined as the seven calendar days before the first day of finals. Faculty may cover new course material throughout this week. For specific provisions of the policy please refer to OU's Final Exam Preparation Period policy.

University Policy

Exam II (worth 20% of the final grade) is scheduled during the pre-finals week. According to the Faculty Handbook Section 4.10.1 (C), this exam is an exception to Section 4.10.1 (A), (B), and (E) because it was approved by the MIS division head and is included in the schedule for this class.

Calendar B AD 1001

Week	Learning Objectives	Assignments Due Thursday 11:59 PM
Week 1	Class Introduction (Chapter 0) Purchase textbook, download excel, set up MyEducator, etc.	
Week 2	Cloud Storage Overview + Internet Hygiene (Chapter 1) - Understand the purpose of OneDrive - Security threats while using a browser - Use of Incognito surfing mode - Cookie settings Utilizing Microsoft OneDrive (Chapter 2) - Create folder structures on OneDrive - Upload documents to various folders on OneDrive - Share documents with various rights via OneDrive - Locate documents that were shared with you on OneDrive	Week 1 – Course Readiness & Technology Check
Week 3	Excel Basics & Shortcuts (Chapters 3 & 4) - Navigating cells and worksheets - Formatting cells and worksheets - Sorting and filtering worksheets - Using shortcuts in Excel	Chapter 1 – Test your skills Chapter 2 – Test your skills
Week 4	Formulas and Functions (Chapter 5) - Practice working with basic formulas - Practice working with basic statistical functions (SUM, AVERAGE, COUNT, MAX, MIN) - Practice working with basic financial functions (PMT, PV, FV, RATE, NPER, EFFECT)	Chapter 3 - Test your skills Chapter 4 - Test your skills
Week 5	Boolean Logic and IF Functions (Chapter 6) - Practice working with Boolean functions (AND, OR, NOT) - Practice working with IF functions (IF, nested IF)	Chapter 5 - Test your skills
Week 6	Conditional and Reference Functions (Chapter 7) - Build off the aggregate functions discussed in Week 4 - Introduce conditional expressions such as COUNTIF (), AVERAGEIF (), and SUMIF () - Introduce reference functions such as VLOOKUP () & HLOOKUP ()	Chapter 6 - Test your skills
Week 7	Date, Time, and Text Functions (Chapter 8) - Discuss the difference in formatting when it comes to numbers and Date/Time expressions - Conduct operations between dates (how many days between two dates) - Using Date functions such as DAY (), MONTH (), YEAR (), WEEKNUM (), etc. - Introduce string manipulation using LEFT (), MID (), RIGHT (), FIND (), etc.	Chapter 7 - Test your skills
Week 8	EXAM 1	Chapter 8 - Test your skills
Week 9	SPRING BREAK	
Week 10	Charting (Chapter 9) - Provide baseline information regarding the location of charting options within Excel. - Determine the most appropriate chart given data - Provide example problems for line, pie, column charts	
Week 11	Working with Tables (Chapter 10) - Understand the components of a table (headers, filter, sort, etc.) Creating & designing tables Conditional Formatting (Chapter 11) - Apply all the various conditional formatting approaches (data bars, color scales, etc.)	Chapter 9 - Test your skills

Week 12	Statistics (Chapter 12) • Introduction to data analysis • Estimating characteristics of a dataset: average, standard deviations, and confidence intervals • An introduction to correlations	Chapter 10 - Test your skills Chapter 11 - Test your skills
Week 13	Analyzing Data with Pivot Tables (Chapter 13) • Creating and manipulating Pivot Tables • Performing calculations in Pivot Tables • Filtering Data in Pivot Tables	Chapter 12 - Test your skills
Week 14	The History of AI (Chapter 14) • Beginnings, evolution, unlocking creativity The AI Cookbook (Chapter 15) • How AI works, step-by-step instructions Demystifying AI Algorithms (Chapter 16) • Introduction to AI algorithms (core concept, supervised and unsupervised algorithms), neural networks and deep learning • Tools and platforms	Chapter 13 – Test your skills
Week 15	Prompt Engineering (Chapter 17) • Effective strategies for prompt engineering Ethics and Governance in AI (Chapter 18) • Introduction to ethics and governance of AI	Chapter 14 – Test your skills Chapter 15 – Test your skills Chapter 16 – Test your skills
Week 16	EXAM 2	Chapter 17 – Test your skills Chapter 18 – Test your skills Note Taking and AI Summarization
Week 17	OPTIONAL FINAL EXAM (will replace the lowest score of Exam 1 or Exam 2)	See canvas for your Exam date

The schedule above should be considered tentative; adjustments to this schedule may be made. In-class, emailed, or Canvas-posted announcements supersede this outline.
