Weiyu Wang, M.S. & MBA

Instructor

Management Information Systems

Course Title: MIS 3213 Business Data Analysis

Course Dates & Times: M/W/F, 1 - 1:50 pm

Classroom: Price Hall 2030

Office Hours: Wed 2:30-4 pm or by appointment

Office: Cate Center Four, Room 230

Zoom link:

<https://oklahoma.zoom.us/j/93240334783?pwd=2q40UyA6nturUsVYKdaoObuZtX4iRk.1> 
(<https://oklahoma.zoom.us/j/99512956318?pwd=2phqtkBOeNh2Jv0qxqn1Zw23wtOx2x.1>)

Meeting ID: 995 1295 6318

Passcode: 35091500

Email: wywang@ou.edu (<mailto:weiyuwang-1@ou.edu>)

Course Details

For a list of course activities, scroll to the bottom of this page.

Course Prerequisites

- Students must have been approved for degree candidacy by Price College.

Course Learning Outcomes

CLO	Description
-----	-------------

A	Able to demonstrate strategic utilization of programming, data, and analytics skills to address complex business challenges and enhance decision-making processes.
B	Able to acquire and apply foundational Python skills for automating repetitive tasks and extracting actionable business insights from data analyses.
C	Able to utilize Python's data structures, control structures, and functions to solve complex business problems.
D	Able to exhibit skills in data visualization to conduct meaningful business analyses and provide actionable insights.
E	Able to apply effective team collaboration skills, working within diverse groups to perform in-depth data analyses and make informed decisions.

Course Materials

Title: *Introduction to Python Data Analytics*

Author: Keith, Mark

Publisher: MyEducator

Version: 2024, online, with AI

Cost: \$89.99

ISBN: 978-1-952023-20-0

How to Purchase the book:

- **Access Canvas:**

- Log in to Canvas and click on "**MyEducator CanvasConnect** (<https://canvas.ou.edu/courses/471194/modules/items/8453119>)_."
- Follow the instructions provided **here**  (<https://myeducator.freshdesk.com/support/solutions/articles/14000068906-what-is-the-myeducator-canvas-tool->)_.

- **Device and Browser Requirements:**

- Use a computer (not a tablet or phone) to purchase the book.
- Use Chrome or Firefox as your Internet browser.

- **Ensure Email Consistency:**

- Make sure your email in Canvas matches your MyEducator account email. If you don't have a MyEducator account, ensure your email is listed in Canvas.
- **Log Out of MyEducator:**
 - If you have a MyEducator account, log out by visiting myeducator.com 
(<https://myeducator.com/>).
- **Troubleshooting Access Issues:**
 - If you still can't access the book in Canvas:
 - Clear your browser cache.
 - Close all Internet browsers (Mac users, please "quit" them all).
 - Try accessing the book again.

Grades

Breakdown

Activity	Description	Percentage
In-class Activities	Participation in various in-class activities	10%
Participation	Actively participate in class activities and discussions.	10%
Lab Assignments	Python coding tasks based on the module course topics	30%
Case Competition (TBD)	Work as a group to apply data analysis skills to a real-life business project	30%
Exam 1 (TBD)	Assessment on topics covered in Weeks 1 - 5	10%
Exam 2 (TBD)	Assessment on topics covered in Weeks 7 - 11	10%
	Total	100%

Scale

Grade Scale

Percentage	Letter Grade
90–100%	A
80–89%	B
70–79%	C
60–69%	D
Below 60%	F

Course Components

In-class Activities

Participation in various in-class activities is essential for a hands-on understanding of the course material. These activities include group discussions, interactive exercises, and real-time problem-solving sessions.

Participation

Participation includes your contributions to class discussions, whether **in person** (during lectures) or **online** (through the course's online **Discussions** (https://canvas.ou.edu/courses/471194/discussion_topics) board). **Each student is expected to contribute at least TEN times during the semester.** Active participation helps you engage more deeply with the course material and contributes meaningfully to your overall learning experience and final grade.

Lab Assignments

These assignments involve Python coding tasks based on the module topics, designed to provide practical experience in data manipulation, analysis, and visualization using Python and PowerBI.

Lab sessions are typically scheduled on Fridays. All scheduled lectures (usually on Mondays and Wednesdays) will have an associated lab component. Attendance in lab sessions is mandatory and contributes to your course grade. During these sessions, students will get hands-on practice with the week's material by working on assigned lab activities. Tasks may include but are not limited to, running or modifying code from the lecture or completing coding exercises. During weeks when Friday sessions are canceled due to holidays, you are still expected to attempt and submit the labs.

Case Competition

In this group project, students will apply their data analysis skills to solve a real-life business problem. This involves data exploration, analysis, and presenting findings and recommendations. Per Faculty Handbook Section 4.10.1 (C), the case competition presentations are scheduled during the Final Exam Preparation Period. This schedule has been approved by the chair of the MIS division, has been clearly stated in the syllabus and presented to you on the first day of class.

Exams

Two exams are designed to evaluate your comprehensive understanding of data analysis techniques, drawing from all course materials—readings, assignments, quizzes, and more. Specific details about exam logistics will be available on Canvas and discussed during our live sessions. Please note: Missing a scheduled exam without prior arrangements will result in a grade of zero for that assessment.

Course Policies

Communication

The best way to get a hold of me is through email (weiyuwang-1@ou.edu (<mailto:tracyzou@ou.edu>)) or office hours. Please put MIS-3213 in the email subject line when you send me emails. I will generally respond within 24 business hours (Monday through Friday). I am open for appointments to discuss issues via Zoom. Please contact me about setting up Zoom appointments if needed.

Feedback

I typically provide feedback and grades within one week of the assignment's due date.

Late Policy

Any assignments turned in past the due date will receive 0 points. If there are extenuating circumstances, you will need to discuss those with me as soon as possible.

Attendance

Your consistent presence and active engagement are cornerstones of our shared learning journey. Missing out on **Case Competition** will unfortunately lead to a score of zero for the respective segment.

We do recognize that life can be unpredictable. Should you be unable to attend or complete assignments, exams, or other course activities, your absence may be classified as "excused" under the subsequent scenarios, but only if the instructor is notified before the deadline:

- **Medical Situations:** Emergencies or hospitalizations involving either the student or an immediate family member.
- **Bereavement:** The unfortunate loss of a close family member, including but not limited to spouses, parents, guardians, siblings, or children.
- **Legal Commitments:** Obligations that mandate the student's attendance, such as being summoned for jury duty or to a court.
- **Special Circumstances:** Any other situations that garner explicit consent from the course coordinator or the instructor.

Academic Integrity

The University of Oklahoma has an Academic Misconduct Code that governs student academic performance in and out of the classroom. The Academic Misconduct Code can be reviewed online at <http://www.ou.edu/integrity> (<http://www.ou.edu/integrity>)

Academic misconduct is defined as “any act that improperly affects the evaluation of a student’s academic performance or achievement”. All work assigned in this course is to be completed individually (unless otherwise stated). The steps and procedures as outlined in the Academic Misconduct Code will be followed in all cases of academic misconduct in this class.

MIS Division's Guidelines provides the following guidelines for dealing with Academic Misconduct:

1. **All academic misconduct will be reported** using the following form: <http://www.ou.edu/content/dam/integrity/docs/academic-misconduct-report.pdf> (<http://www.ou.edu/content/dam/integrity/docs/academic-misconduct-report.pdf>). Please read this form carefully so that you understand the potential penalties.
2. The instructor will decide whether the misconduct is an **Admonition** or **Violation of the Academic Integrity Code**.
3. When an instance of academic misconduct occurs on **labs or a similar assignment** and the instructor categorizes this as **Admonition**, **a grade of zero will be recorded and a deduction equal to the value of the assignment will be applied.**
4. When an instance of academic misconduct occurs on an **exam** assignment and the instructor categorizes this as **Admonition**, **a grade of zero will be recorded.**
5. When an instance of academic misconduct occurs on an **exam** assignment and the instructor categorizes this as **Violation of the Academic Integrity Code**, no grade penalty shall be imposed until the student is officially found responsible for violating the Academic Integrity Code. Until this occurs, and "N" shall be filed as the student's final course grade. If established, a violation results in a grade penalty and a University penalty.
6. Faculty may choose to impose greater grade penalties than those recommended above by the MIS Division.

Plagiarism

Plagiarism is the most common form of academic misconduct at OU. There is basically no college-level assignment that can be satisfactorily completed by copying. OU's basic assumption about writing is that all written assignments show the student's own understanding in the student's own words. That means all writing assignments, in class or out, are assumed to be composed entirely of words generated (not simply found) by the student, except where words written by someone else are specifically marked as such with proper citation. Including other people's words in your paper is helpful when you do it honestly and correctly. When you don't, it's plagiarism.

For more information about plagiarism, watch this **video** (<https://libraries.ou.edu/content/academic-integrity-tutorial>) and then take this **short course** (<https://canvas.ou.edu/courses/129766>) offered by University Libraries.

Generative AI Policy

You are welcome to use Generative AI tools (e.g., ChatGPT, GitHub Copilot, Claude, etc.) in this course under the following conditions:

- **Troubleshooting and Debugging:** You may use these tools to help identify, understand, and resolve issues in your code.

- **Further Study:** You may use them to explore and deepen your understanding of concepts beyond what we cover in class.

Please note that while these tools can be powerful aids, you are ultimately responsible for ensuring you understand the solutions and concepts they provide. Misuse, such as submitting unexamined or unmodified AI-generated work as your own, may hinder your learning and could conflict with academic integrity policies.

University Policies

Mental Health Support Services

Support is available for any student experiencing mental health issues that are impacting their academic success. Students can either be seen at the University Counseling Center (UCC) located on the second floor of Goddard Health Center or receive 24/7/365 crisis support from a licensed mental health provider through **TELUS** (<https://www.ou.edu/ucc/online-therapy>) Health. To schedule an appointment or receive more information about mental health resources at OU please call the UCC at 405-325-2911 or visit **University Counseling Center** (<https://www.ou.edu/ucc>). The UCC is located at 620 Elm Ave., Room 201, Norman, OK 73019.

Title IX Resources and Reporting Requirement

The University of Oklahoma faculty are committed to creating a safe learning environment for all members of our community, free from gender and sex-based discrimination, including sexual harassment, domestic and dating violence, sexual assault, and stalking, in accordance with Title IX. There are resources available to those impacted, including: speaking with someone confidentially about your options, medical attention, counseling, reporting, academic support, and safety plans. If you have (or someone you know has) experienced any form of sex or gender-based discrimination or violence and wish to speak with someone confidentially, please contact **OU Advocates** (<https://www.ou.edu/gec/gender-based-violence/advocates>) (available 24/7 at 405-615-0013) or **University Counseling Center** (<http://ou.edu/ucc>) (M-F 8 a.m. to 5 p.m. at 405-325-2911).

Because the University of Oklahoma is committed to the safety of you and other students, and because of our Title IX obligations, I, as well as other faculty, Graduate Assistants, and Teaching Assistants, are mandatory reporters. This means that we are obligated to report gender-based violence that has been disclosed to us to the Institutional Equity Office. This means that we are obligated to report gender-based violence that has been disclosed to us to the Institutional Equity Office. This includes disclosures that occur in: class discussion, writing assignments, discussion boards, emails and during Student/Office Hours. You may also choose to report directly to the Institutional Equity Office. After a report is filed, the Title IX Coordinator will reach out to provide resources, support, and information and the reported information will remain private. For more information regarding the University's Title IX Grievance

procedures, reporting, or support measures, please visit [Institutional Equity Office \(https://www.ou.edu/eoo\)](https://www.ou.edu/eoo) at 405-325-3546.

Reasonable Accommodation Policy

The University of Oklahoma (OU) is committed to the goal of achieving equal educational opportunity and full educational participation for students with disabilities. If you have already established reasonable accommodations with the Accessibility and Disability Resource Center (ADRC), please **submit your semester accommodation request through the ADRC (https://www.ou.edu/adrc/students/adrc-registered-students/accommodation-request)** as soon as possible and contact me privately, so that we have adequate time to arrange your approved academic accommodations.

If you have not yet established services through ADRC, but have a documented disability and require accommodations, please complete **ADRC's pre-registration form**  **(https://forms.office.com/pages/responsepage.aspx?id=neB9nDSQwUS0YsRk_s4gSiXtB4DC5XxJhwAGd7Un1f5UNFU2WDE3UEVENTFIMkgyWFKzV0IGM1NPVCQ)** to begin the registration process. ADRC facilitates the interactive process that establishes reasonable accommodations for students at OU. For more information on ADRC registration procedures, please review their **Register with the ADRC (https://www.ou.edu/adrc/about/registering-with-the-adrc)** web page. You may also contact them at (405)325-3852 or [adrc@ou.edu \(mailto:adrc@ou.edu\)](mailto:adrc@ou.edu), or visit [www.ou.edu/adrc \(http://www.ou.edu/adrc\)](http://www.ou.edu/adrc) for more information.

Note: disabilities may include, but are not limited to, mental health, chronic health, physical, vision, hearing, learning and attention disabilities, pregnancy-related. ADRC can also support students experiencing temporary medical conditions.

Religious Observance

It is the policy of the University to excuse the absences of students that result from religious observances and to reschedule examinations and additional required classwork that may fall on religious holidays, without penalty. **[See Faculty Handbook 3.15.2] (https://apps.hr.ou.edu/FacultyHandbook/#3.15.2)**

Adjustments for Pregnancy/Childbirth Related Issues

Should you need modifications or adjustments to your course requirements because of documented pregnancy-related or childbirth-related issues, please contact the Accessibility and Disability Resource Center at 405/325-3852 and/or the Institutional Equity Office at 405/325-3546 as soon as possible. Also, see the Institutional Equity Office **FAQ on Pregnant and Parenting Students' Rights (https://www.ou.edu/content/dam/eoo/documents/faqs/faqs-pregnant-and-parenting-students.pdf)** for answers to commonly asked questions.

Final Exam Preparation Period

Pre-finals week will be defined as the seven calendar days before the first day of finals. Faculty may cover new course material throughout this week. For specific provisions of the policy please refer to OU's **Final Exam Preparation Period policy** (<https://www.ou.edu/registrar/academic-records/academic-calendars/final-exam-schedule/final-exam-policies>).

Emergency Protocol

During an emergency, there are official university **procedures** (<https://www.ou.edu/campusafety/policy-and-procedures>) that will maximize your safety.

Severe Weather: If you receive an OU Alert to seek refuge or hear a tornado siren that signals severe weather.

1. Look for severe weather refuge location maps located inside most OU buildings near the entrances.
2. Seek refuge inside a building. Do not leave one building to seek shelter in another building that you deem safer. If outside, get into the nearest building.
3. Go to the building's severe weather refuge location. If you do not know where that is, go to the lowest level possible and seek refuge in an innermost room. Avoid outside doors and windows.
4. Get in, Get Down, Cover Up
5. Wait for official notice to resume normal activities.

Additional **Weather Safety Information** (<https://www.ou.edu/campusafety/divisions#management>) is available through the Department of Campus Safety.

The University of Oklahoma Active Threat Guidance

The University of Oklahoma embraces a Run, Hide, Fight strategy for active threats on campus. This strategy is well known, widely accepted, and proven to save lives. To receive emergency campus alerts, be sure to update your contact information and preferences in the account settings section at **one.ou.edu** (<http://one.ou.edu/>).

RUN: Running away from the threat is usually the best option. If it is safe to run, run as far away from the threat as possible. Call 911 when you are in a safe location and let them know from which OU campus you're calling from and location of active threat.

HIDE: If running is not practical, the next best option is to hide. Lock and barricade all doors; turn off all lights; turn down your phone's volume; search for improvised weapons; hide behind solid objects and walls; and hide yourself completely and stay quiet. Remain in place until law enforcement arrives. Be patient and remain hidden.

FIGHT: If you are unable to run or hide, the last best option is to fight. Have one or more improvised weapons with you and be prepared to attack. Attack them when they are least expecting it and hit them where it hurts most: the face (specifically eyes, nose, and ears), the throat, the diaphragm (solar plexus), and the groin.

Please save OUPD's contact information in your phone.

NORMAN campus: *For non-emergencies call (405) 325-1717. For emergencies call (405) 325-1911 or dial 911.*

TULSA campus: *For non-emergencies call (918) 660-3900. For emergencies call (918) 660-3333 or dial 911.*

Fire Alarm/General Emergency

If you receive an OU Alert that there is danger inside or near the building, or the fire alarm inside the building activates:

1. *LEAVE* the building. Do not use the elevators.
2. *KNOW* at least two building exits
3. *ASSIST* those that may need help
4. *PROCEED* to the emergency assembly area
5. *ONCE safely outside, NOTIFY first responders of anyone that may still be inside building due to mobility issues.*
6. *WAIT* for official notice before attempting to re-enter the building.

OU Fire Safety on Campus ➞ [\(https://vimeo.com/125093634\)](https://vimeo.com/125093634)

Tentative Schedule (Subject to changes)		
Week #	Date	Agenda
Week1	1/21, 1/23	Debugging with ChatGTP Chapter 2: Python: Variables Chapter 3: Python: Flow Control
Week2	1/26, 1/28, 1/30	Chapter 5: Python: Collections (list, dict); Chapter 6: Python: Iterations
Week3	2/2, 2/4, 2/6	Chapter 12: Python: Functions Chapter 7: Python: Packages Chapter 9: Python: Reading/Writing. Web Service APIs (optional)
Week4	2/9, 2/11, 2/13	Chapter 8: Python: DataFrames (filter, sort, replace values)
Week5	2/16, 2/18, 2/20	Chapter 10: Python: Advanced DataFrames (merge, join, working with dates)
Week6	2/23, 2/25, 2/27	Exam 1 on 2/25 (open-book, open notes)
Week7	3/2, 3/4, 3/6	Chapter 22: Prep: Data Wrangling
Week8	3/9, 3/11, 3/13	Chapter 23: Prep: Skewness Chapter 24: Prep: Outliers
Week9	3/16, 3/18, 3/20	Spring Vacation - No Class
Week10	3/23, 3/25, 3/27	Chapter 25: Prep: Missing Data
Week11	3/30, 4/1, 4/3	Exam 2 on 4/1 (open-book, open notes)
Week12	4/6, 4/8, 4/10	Project Work Time
Week13	4/13, 4/15, 4/17	Power BI

		Project Work Time
Week14	4/20, 4/22, 4/24	Project Work Time
Week15	4/27, 4/29, 5/1	Project Work Time Case Competition (May 2)
Week16	5/4, 5/6, 5/8	Pre-finals Week (Reflection on Case Competition)
Week17	5/14	No Final Exam
