Contact Information

This table includes information about how to contact your instructor and other important details about your class

John James

Management Information Systems

Office Hours: MWF 2:00 - 2:50PM & 4:00 - 5:00PM CST (or by appointment)

Office Location: Adams Hall Room 3102

Phone: (405) 246-8523

**Email: john.t.james-1@ou.edu
(<mailto:john.t.james-1@ou.edu>) (<mailto:john.t.james-1@ou.edu>)**

Live Session: Monday, Wednesday, Friday 3:00 - 3:50 PM

Class Location: Price Hall 3210

Instructor Biography

I received my Master of Business Administration from the University of Oklahoma in the spring of 1997 with studies concentrated in Information Technology and Accounting. I earned my Oklahoma Certified Public Accountant license in 1999 and have maintained my license throughout my career. In addition, I completed the Graduate Certificate in Digital Technologies program in the fall of 2021 at The University of Oklahoma. My background includes extensive industry experience in business analysis, software development, implementation, administration, financial analysis, data analysis, and business intelligence. Before I began teaching full-time, I worked in Oklahoma City as the Manager of Business Intelligence and Analysis for an organization in the private sector. My hobbies include training for triathlons, tinkering around on my old Jeep, playing golf, traveling, and spending time with family and friends.

Course Details

For a list of course activities, scroll to the bottom of this page.

Course Prerequisites

MIS 3353 Databases or permission.

Course Materials

- [Essentials of Systems Analysis & Design Theory](https://ou.textbookbrokers.com/courselisting/index/loadMaterials?courses=[{) ➞
([https://ou.textbookbrokers.com/courselisting/index/loadMaterials?courses=\[{"%22school%22:%22UNIVERSITY+OF+OKLAHOMA%22,%22term%22:%22FALL+2025%22,%22dept%22:](https://ou.textbookbrokers.com/courselisting/index/loadMaterials?courses=[{)
- [Lucid](https://lucid.app/users/login#/login) ➞ (<https://lucid.app/users/login#/login>)
- JIRA - **Your instructor will invite you to the JIRA application during this course.**

Grades

Student grades are earned through the following activities:

	Points/Percentage
Live Lecture Attendance	5%
In-Class Presentations	5%
Homework	10%
Toolbox - Deliverables and Finalized	25%
Midterm Exam	25%
Project - Deliverables and Project	25%
Team Evaluations	5%

TOTAL	100%
--------------	------

Scale

Letter grades are based on the following percentage totals:

Grade Scale

Percentage	Letter Grade
90–100%	A
80–89%	B
70–79%	C
60–69%	D
Below 60%	F

Course Components

Live Lecture Attendance

The material in this class is cumulative, which is to say each week's material builds on the prior week's material. For the design of this class to work, students must be actively involved in the class. Students should read and think about the material before coming to class, and then participate in the class discussions. You must be present, obviously, to participate in class discussions. Therefore, it is imperative that you attend class.

In-Class Presentations

In-Class Presentations are short (5 - 7 minute), team presentations that represent a "Stand Up," which is a part of the SCRUM process. We will learn about the SCRUM process during the Agile project management methodology portion of the class. Each team will have 2 In-Class Presentations throughout the course. The team members will actually stand up in class and give a summary of their progress on the project and also identify blockers they have encountered during the project.

Homework

Homework assignments are varied, and consist of short-essays, creating visualizations/charts, performing analysis, and creating diagrams. Homework consists of both individual and team assignments.

Toolbox - Deliverables and Finalized

The Toolbox is a set of documents, diagrams, definitions, examples, charts, etc. that will outline the materials learned in this class. The purpose of the class is to teach not only theoretical but also practical

Systems Analysis and Design techniques. The Toolbox will be something students can use not only in the class, but also after they graduate. Students can take this Toolbox with them on their job and use it as a reference. The Toolbox is an individual assignment, and components will be assigned to it each week. See the Toolbox Guidelines module/document for specifics on building the Toolbox.

Midterm Exam

The Midterm Exam is a combination of T/F, MC, and Short Answer questions as well as diagramming exercises.

Project - Deliverables and Project

As students progress through their college careers, they search for opportunities to further their education and experiences outside of the classroom. An internship can provide such an opportunity. An internship is a learning experience in a professional environment that offers practical and relevant work related to a student's career aspirations. An internship gives a student the opportunity for career exploration and to learn new skills.

As with most jobs, acquiring an internship is a very involved process that requires a significant amount of effort and organization. Since acquiring an internship is the first exposure students have had to the job search process, they may not have access to the tools necessary to help them succeed in this process.

Therefore, the project for this class addresses the need for an internship acquisition tool. These activities include searching for internships that are available, documenting the application process, creating and customizing resumes, preparing for interviews, documenting follow-up activities, and recording the outcome of the internship process.

The project is outlined in detail in the Project section of Canvas.

Team Evaluations

For the Team Evaluation, each student must rate (using Team Evaluation form provided by the instructor) the degree to which members of the team fulfilled his/her responsibilities in completing the project. The objective of the peer evaluation is to encourage 100% commitment and performance from each team member throughout the course. These ratings should reflect each individual's level of participation, effort, and sense of responsibility rather than his or her academic ability. Note that the peer evaluations are confidential and will not be shared with anybody.

Course Policies

Communication

Please address me as Professor or Professor James. When you send an e-mail to me, please be sure to include the course number or some course identifier in the Subject line. Additionally, please identify yourself in the text of your e-mail, otherwise, I may not figure out who you are just by your email address alone. Please note that if your question is relevant to the class, I will forward your email with my response to the class – so be sure to proofread your email and use good email etiquette because it may

be seen by your classmates. It is the student's responsibility to receive/check incoming mail in a timely fashion (e.g., not regularly checking your email, having a "full mailbox" condition, etc.).

Academic Integrity for Generative Artificial Intelligence Programs

I permit the use of standalone Generative AI tools such as ChatGPT, Copilot, Claude, etc., for the following:

- Searching for publications on your research topic.
- Creating an outline, text, or speech for presentations and writeups.
- Providing grammatical feedback on drafts.
- Further study on concepts outside of class.
- Troubleshooting problems with software.
- Creating initial ideas for project.

Whenever you use Generative AI for any of these, you are required to make a declaration acknowledging how and to what extent you used it. Please include an appendix that details the prompts you used and the responses you obtained. Usage of Generative AI outside of the clearly defined scope, and without acknowledgment as required, will be considered a violation of the academic integrity policy for this course.

Attendance and Participation

Every class is important so please do not send an email asking "whether we will cover anything important tonight." Each session may have class participation activities. If you miss participating in an activity assigned to your team, you will receive a zero for that assignment. An absence from an assignment, homework, exam, or project shall be considered "excused" if it occurs because of any of the following situations and the instructor was contacted **prior to the due date**:

- Illness or hospitalization of the student or an immediate family member due to illness or accident.
- Death in the student's immediate family (for example, spouse, parents, guardians, siblings, children).
- Summons of the student to appear for Jury Duty or before a court.
- Any other explanation that has been approved by the course coordinator or instructor.

To be successful in this course, you must stay active and involved throughout the entire course. Students are expected to participate in all interactive aspects of the course. You should also regularly communicate with the instructor as part of your overall learning experience, check into the course frequently for announcements (usually on the course home page), and actively participate in discussion events (both formal and informal).

As noted above, each class will include a participation activity, to be submitted on Canvas, that will demonstrate that students are paying attention, and are participating in the tasks that are asked of them. If a student misses a class, their participation activity grade will be zero for that assignment.

Late Policy

Each assignment has a clearly defined due date. You are expected to deliver assignments on time. Contact the professor if you intend to submit a late assignment. If the late assignment was due to an excused absence as outlined above in the Attendance and Participation section, the arrangements will be made for submitting a late assignment based on the circumstances.

Feedback

Students can expect a response to emails within two business days, and feedback on all work submitted within 7-10 business days. Your instructor will be as responsive as possible to requests for phone, in office, or online meetings as well.

Plagiarism

Plagiarism is the most common form of academic misconduct at OU. There is no college-level assignment that can be satisfactorily completed by copying. OU's basic assumption about writing is that all written assignments show the student's own understanding in the student's own words. That assumption means all writing assignments, in class or out, are assumed to be composed entirely of words generated (not simply found) by the student, except where words written by someone else are specifically marked as such with proper citation. Including other people's words in your paper is helpful when you do it honestly and correctly. When you don't, it's plagiarism.

For more information about plagiarism, watch this [video \(https://libraries.ou.edu/content/academic-integrity-tutorial\)](https://libraries.ou.edu/content/academic-integrity-tutorial) and then take this [short course \(https://canvas.ou.edu/courses/129766\)](https://canvas.ou.edu/courses/129766) offered by University Libraries.

Academic Integrity for Generative Artificial Intelligence Programs

I expect you to use AI (ChatGPT) to help you get started on course assignments. I am happy to meet with you if you need help with the assignment or need help with how to use ChatGPT.

However, be aware of the limits of ChatGPT:

- If you provide minimum effort prompts, you will get low-quality results. You will need to refine your prompts in order to get good outcomes. This will take work.
- Don't trust anything it says. If it gives you a number or fact, assume it is wrong unless you either know the answer or can check in with another source. You will be responsible for any errors or omissions provided by the tool.
- AI is a tool, and you need to acknowledge using it. Please include a paragraph here explaining your interaction with ChatGPT, and what prompts you used to get the results.

Using AI programs and **not disclosing where and how that content is used** is considered academic dishonesty and will be considered a violation of academic integrity. If the usage of such programs is found without disclosure, students will receive a "0" for the grade and will be reported to OU's [Integrity Council \(https://www.ou.edu/integrity/students\)](https://www.ou.edu/integrity/students). Students unsure about using AI tools in coursework

should speak directly to their instructor or seek guidance from the [Student's Guide to Academic Integrity \(http://integrity.ou.edu/students_guide.html%C2%A0\)](http://integrity.ou.edu/students_guide.html%C2%A0).

University Academic Policies and Student Support

Land Acknowledgement

Long before the University of Oklahoma was established, the land on which the University now resides was the traditional home of the “Hasinai” Caddo Nation and “Kirikirʔi:s” Wichita & Affiliated Tribes.

We acknowledge this territory once also served as a hunting ground, trade exchange point, and migration route for the Apache, Comanche, Kiowa and Osage nations. Today, 39 tribal nations dwell in the state of Oklahoma as a result of settler and colonial policies that were designed to assimilate Native people.

The University of Oklahoma recognizes the historical connection our university has with its indigenous community. We acknowledge, honor and respect the diverse Indigenous peoples connected to this land. We fully recognize, support and advocate for the sovereign rights of all of Oklahoma’s 39 tribal nations. This acknowledgment is aligned with our university’s core value of creating a diverse and inclusive community. It is an institutional responsibility to recognize and acknowledge the people, culture and history that make up our entire OU Community.

Course Catalog

Search the [OU Course Catalog \(http://www.ou.edu/enrollment/course_catalog\)](http://www.ou.edu/enrollment/course_catalog).

Student Handbook

Please familiarize yourself with the [OU Student Handbook \(http://www.ou.edu/studentlife/studenthandbook\)](http://www.ou.edu/studentlife/studenthandbook).

Student Support Services

OU offers a variety of services to support students. For more information, please refer to the Student Support Module in your Orientation course.

Online Library

Access digital materials and other resources at [OU Libraries \(http://libraries.ou.edu\)](http://libraries.ou.edu).

Copyright Statement and Privacy Information

Sessions of this course may be recorded or live-streamed. These recordings are the intellectual property of the individual faculty member and may not be shared or reproduced without the explicit, written consent of the faculty member. In addition, the privacy rights of others such as students, guest lecturers, and providers of copyrighted material displayed in the recording may be of concern. Students may not share any course recordings with individuals not enrolled in the class or upload them to any other online environment.

Academic Integrity

As a member of the OU community, it is your responsibility to protect your educational investment by knowing and following the rules. The Student Code is available from the Office of the Vice President for Student Affairs and is contained in the **Student's Guide to Academic Integrity** (http://integrity.ou.edu/students_guide.html%C2%A0).

Academic honesty is incredibly important in this course. Cheating is strictly prohibited at the University of Oklahoma because it devalues the degree you are working hard to get. Should you know of someone else engaging in academic misconduct, please report it to your instructor or directly to the Office of Academic Integrity. Your instructor has a professional obligation to report academic misconduct.

In addition to the course conduct policies outlined by your professor in the Course Syllabus in the online classroom, please review the Graduate Student Handbook.

Religious Observance

It is the policy of the University to excuse the absences of students that result from religious observances and to reschedule examinations and additional required classwork that may fall on religious holidays, without penalty. [See **Faculty Handbook 3.15.2** (<https://apps.hr.ou.edu/FacultyHandbook/>)].

Reasonable Accommodation for Disabilities

The Accessibility and Disability Resource Center (ADRC) is committed to supporting students with disabilities to ensure that they can enjoy equal access to all components of their education. This includes your academics, housing, and community events. Please review **OU's Accessibility Policy** (<https://www.ou.edu/adrc/resources/policies>).

If you are experiencing a disability or a mental/medical health condition that has a significant impact on one or more life functions, you can receive accommodations to provide equal access. Possible disabilities include but are not limited to learning disabilities, AD(H)D, mental health, and chronic health. Additionally, we support students with temporary medical conditions (broken wrist, shoulder surgery, etc.) and pregnancy.

To discuss potential accommodations, please contact the ADRC at 730 College Avenue, (phone) 405-325-3852, or adrc@ou.edu (<mailto:adrc@ou.edu>).

Title IX Resources

For any concerns regarding gender-based discrimination, sexual harassment, sexual misconduct, stalking, or intimate partner violence, the University offers a variety of resources, including advocates on-call 24/7, counseling services, mutual no-contact orders, scheduling adjustments, and disciplinary sanctions against the perpetrator. To learn more or to report an incident, please contact the [Institutional Equity Office](https://www.ou.edu/eoo) (<https://www.ou.edu/eoo>) (M-F, from 8-5, at 405-325-3546) or [OU Advocates](https://www.ou.edu/gec/gender-based-violence/advocates) (<https://www.ou.edu/gec/gender-based-violence/advocates>) (available 24/7 at 405-615-0013).

Adjustments for Pregnancy/Childbirth-Related Issues

Should you need modifications or adjustments to your course requirements because of documented pregnancy-related or childbirth-related issues, please contact your instructor as soon as possible to discuss your options. Generally, modifications will be made where medically necessary and similar in scope to accommodations based on temporary disability. Learn more about the rights of pregnant and parenting students by consulting the [FAQ sheets](https://www.ou.edu/content/dam/eoo/documents/faqs/faqs-pregnant-and-parenting-students.pdf) (<https://www.ou.edu/content/dam/eoo/documents/faqs/faqs-pregnant-and-parenting-students.pdf>) provided by the [Institutional Equity Office](http://www.ou.edu/eoo) (<http://www.ou.edu/eoo>).

Mental Health Support Services

If you are experiencing any mental health issues that are impacting your academic performance, counseling is available at the University Counseling Center (UCC). The Center is located on the second floor of the Goddard Health Center, at 620 Elm Rm. 201, Norman, OK 73019. To schedule an appointment, call 405-325-2911. For more information, please visit the [University Counseling Center](https://www.ou.edu/ucc) (<https://www.ou.edu/ucc>).

Final Deliverable Preparation Period

Pre-finals week will be defined as the seven calendar days before the first day of finals. Faculty may cover new course material throughout this week. For specific provisions of the policy please refer to OU's [Final Exam Preparation Period policy](https://apps.hr.ou.edu/FacultyHandbook#4.10) (<https://apps.hr.ou.edu/FacultyHandbook#4.10>).

Required Policies for Students On Campus

Emergency Protocol

During an emergency, there are official university [procedures](https://www.ou.edu/campusafety/policy-and-procedures) (<https://www.ou.edu/campusafety/policy-and-procedures>) that will maximize your safety.

Severe Weather: If you receive an OU Alert to seek refuge or hear a tornado siren that signals severe weather:

1. **Look** for severe weather refuge location maps located inside most OU buildings near the entrances
2. **Seek** refuge inside a building. Do not leave one building to seek shelter in another building that you deem safer. If outside, get into the nearest building.
3. **Go** to the building's severe weather refuge location. If you do not know where that is, go to the lowest level possible and seek refuge in the innermost room. Avoid outside doors and windows.
4. **Get in, Get Down, Cover Up.**
5. **Wait** for official notice to resume normal activities.

Additional information about severe weather preparedness is available through the Department of Campus Safety's **Emergency Management Division** (<https://www.ou.edu/campussafety/divisions#management>).

OU-Norman Campus: Tornado Refuge Protocol

Severe Weather Preparedness Video (<https://vimeo.com/237922159>)

Armed Subject/Campus Intruder

If you receive an OU Alert to shelter-in-place due to an active shooter or armed intruder situation or you hear what you perceive to be gunshots:

1. **Avoid:** If you believe you can get out of the area **without** encountering the armed individual, move quickly towards the nearest building exit, move away from the building, and call 911.
2. **Deny:** If you cannot flee, move to an area that can be locked or barricaded, turn off lights, silence devices, spread out, and formulate a plan of attack if the shooter enters the room.
3. **Defend:** As a last resort fight to defend yourself. For more information, visit:

OU's Emergency Preparedness site (<https://www.ou.edu/campussafety>)

Shots Fire on Campus Procedure (<https://www.youtube.com/watch?v=BsEOhGJldl8>)

Fire Alarm/General Emergency

If you receive an OU Alert that there is danger inside or near the building, or the fire alarm inside the building activates:

1. **Leave** the building. Do not use the elevators.
2. **Know** at least two building exits.
3. **Assist** those who may need help.
4. **Proceed** to the emergency assembly area.

5. **Once** safely outside, **Notify** first responders of anyone who may still be inside the building due to mobility issues.
6. **Wait** for official notice before attempting to re-enter the building.

OU Fire Safety on Campus Video (<https://vimeo.com/125093634>)

Course Summary:

Date	Details	Due
Sun Jan 25, 2026	 <u>Week 1 Homework</u> https://canvas.ou.edu/courses/470058/assignments/3345366	due by 11:59pm
